

Load balancing in ESB based service platform

By: Nick Barendregt

July 5, 2012

Agenda

- Introduction
- Research Question
- Different techniques
- Load balancing
- Design
- Conclusion

Introduction

- GEANT
- ESB
- IaaS, PaaS, SaaS

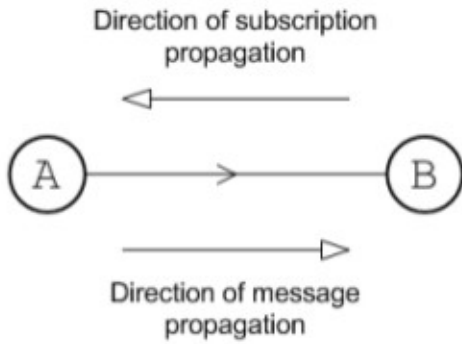

Research Question

Investigate the issues with the real time services operation and synchronization with the existing/proposed load balancing techniques.

Different techniques

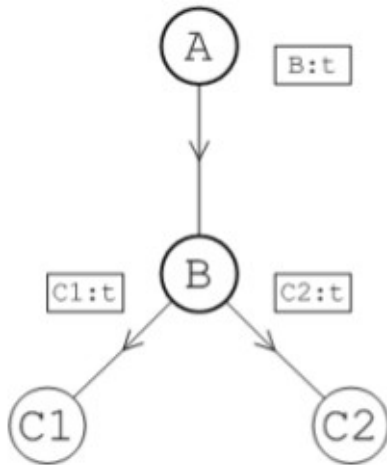

- Network Connections
- Subscriptions
- Filtering
 - Queue & topic
- Discovery Mechanisms
 - Agents
 - Dynamic discovery protocol
 - Fanout

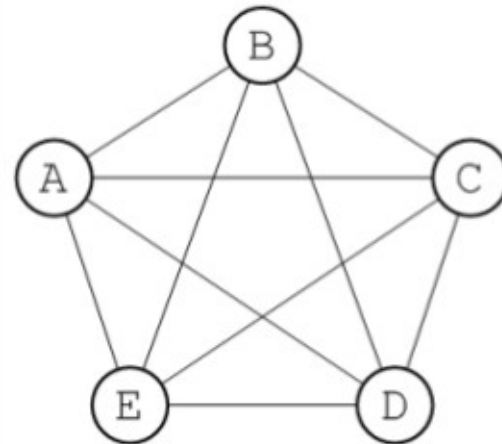

Single connection

Duplex connector

Conduit subscriptions

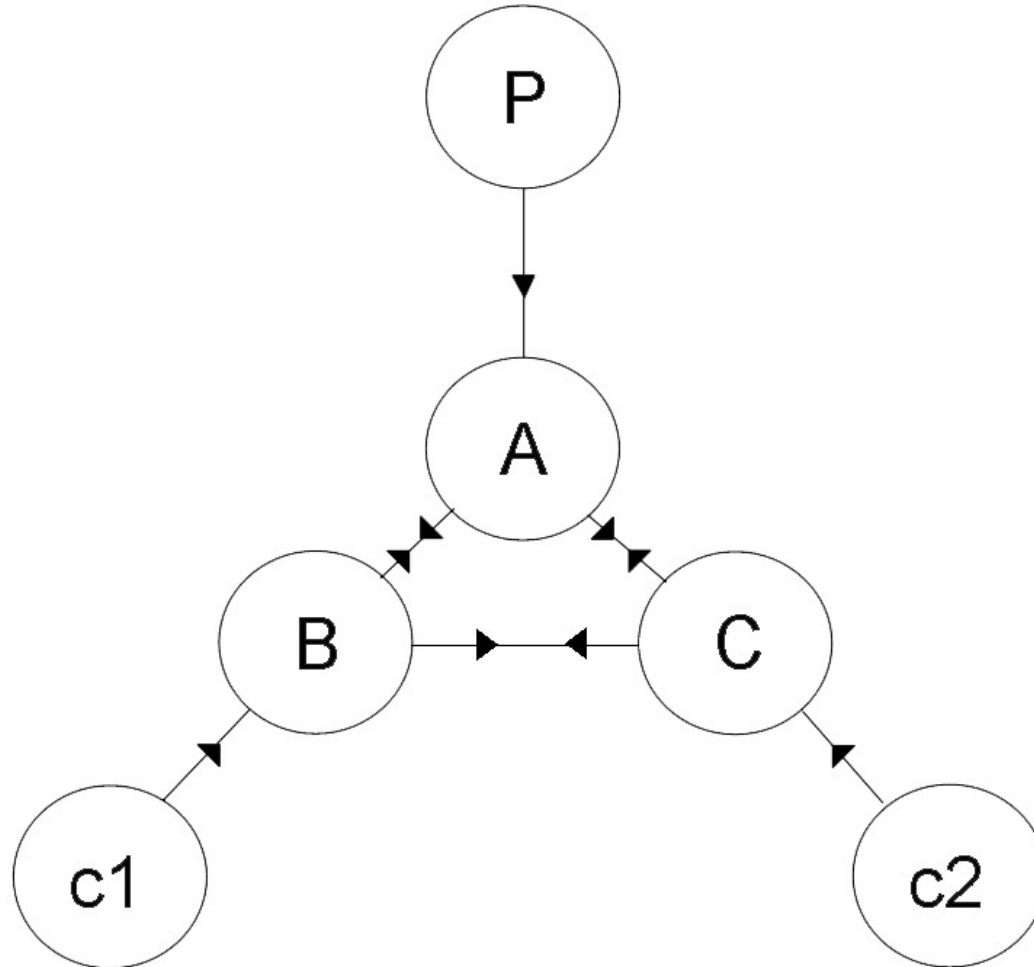

Full graph with discovery

Load balancing

- Propagation
- Balancing consumer load
- Managing producer load
- Filtering
- Topology

Design

Conclusion

- Dynamic load balancing
- Topology
- Configuration

Questions
